FION - The next generation tourism

Property management

Old style timeshare company

Project: more than 10 years of study

Related to the growth of blockchain

FION Coin Strengths

ERC20 - MADE IN ETHEREUM

Built on Ethereum, adheres to standards to create compatibility between tokens and promote improvements in ETH ecosystem

UTILITY TOKEN

Thus it grants access rights to services and products within the blockchain, guaranteeing a digitization of rights

ONLY YOURS - NOT SEIZABLE

Who knows the private keys of wallet where the FIONs are stored, is the owner. Ethereum's decentralized blockchain ensures that your p.k. are your Fiorino

STORE OF VALUE

No other FIONs will be produced and their use will be linked to real economy functions.

04

CONNECTION WITH PLACES

Token holders will be owners of weeks of holidays around the world. The possibility is guaranteed by resorting to organizations of exchanges through agreements already signed.

CONNECTION WITH TIME

Platform of time sharing tokenization system. It will allow Token holders to manage their vacation weeks automatically and independently

CONNECTION WITH REAL ESTATE

The ownership of right to use a real estate unit as a residence for holidays, for one or more weeks a year. Taking advantage of proprietary facilities

Limited time.

€ 0,20 per token.

Private negotiations.

PRE-SALE

€ 0,20 per token.

Discount 20%

ETH and BTC accepted.

Token for sale: 420.000.000.

IEO - TO BE DEFINED

The perspective before launching the token on the market is to make an Initial Exchange Offering, through selected exchanges.

Fiorino Features

Fiorino (FION) have a total supply of 1,400,000,000 and no more tokens will be created. It cannot be undermined or inflated, thanks to this feature which aims to preserve and increase its value over time.

Value of Fiorino was set on the basis of the real overall needs of the project, considering the final value of the properties and services described in this whitepaper.

Can be stored in decentralized wallets such as Metamask. This guarantees full ownership of their FIONs

The issue of a payment card based on blockchain technology is being studied, to allow payment in FION and other main cryptocurrencies, such as Bitcoin, Ethereum, Ripple and stablecoin.

07

FION Benefits & highlights

TOKENIZED TIME SHARING

Those who purchase FIONs for a value of 2 weeks/holidays a year of exclusive availability of the Luxury apartments of the Molino, will be able to use them at any time they wish, even if they leave it under tourist management, for 15 years.

PRIVATE SALE 100% BONUS

Buyers of FION coins in private sale will be granted 50% of the amounts initially spent as a bonus, so as to immediately realize a gain.

FION WORLDWIDE

The owner of the minimum FIONs holders described, will be affiliated free of charge to the world tourism circuit partner

Why FION is the future

FINANCIAL FREEDOM

Nobody can stop you from using your FIONs as you wish. The new paradigm on which Fiorino is based is trust and freedom, which is the basis of the concept of blockchain and Bitcoin. This technology allows you to send any amount anywhere in the world, at reduced costs, and quickly, freely, and without any obstacles: to dispose of one's values without any censorship.

SUSTAINABLE FUTURE

Demetra Ico s.r.o., designed a territorial redevelopment program, compatible with the building of tourist accommodation, welfare, sports, rehabilitation and spa activities. The goal is to create a large and significant added value, territorially compatible, and sustainable in terms of construction and management which, in addition to increasing the quality of tourist offer, increases value of FION coin

PROGRAMMABLE ECOSYSTEM

FION coin is developed within an interoperable environment thanks to the Ethereum ecosystem, on which it is based. Thanks to this it incorporates a high growth potential, market developments, metaverse and service providers through cross-chain bridges.

- Restaurant;

PHASE 3

Value added:

- Golf course
- Archery facility
- Equestrian center
- Sports-fitness center
- Wine cellar
- Tennis and soccer fields

Buy, sell, book and go with FION App

Demetra is creating an innovative App, which will be flowable to buy and sell its FION tokens and, when the tourist facility is operational, to book accommodation and related services.

GROWTH OF FION COIN

EXCHANGE LISTING

Once the sales phases of FION tokens have been completed, it will be listed on the exchanges immediately. No locked tokens are set for who buy before listing.

REAL ECONOMY RELATED

The close correlation between FION and services based on real economy will affect the stability of token, making it a valuable asset. Fiorino has real use in the tokenized time sharing mechanism, not as coins that have no business basis.

TOKEN HOLDERS

Long-term growth of token is expected, due to the massive real estate works envisaged in the project. Once the structures and apps developments will be ready, token holders could benefit from the value of FION.

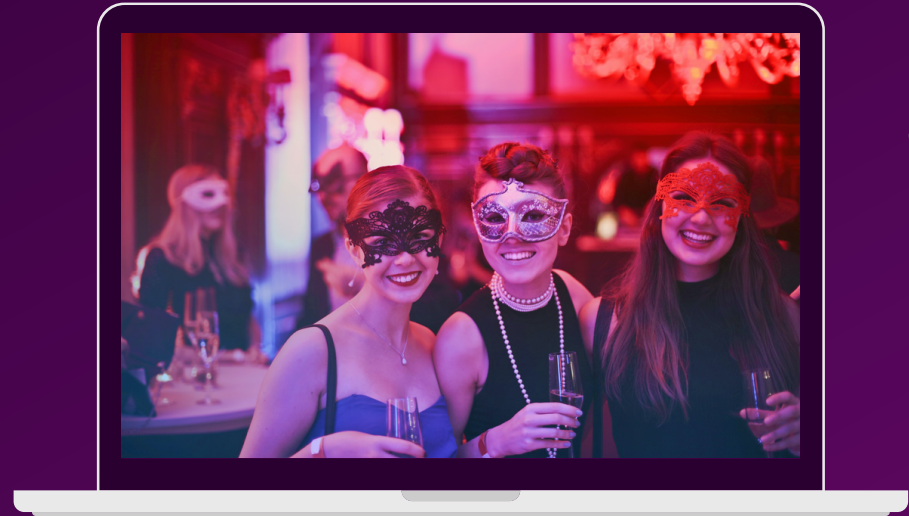

15

For promotion of Fiorino and related services we rely on a close correlation with the real economy, thanks to the tangible assets of the project.

The proprietary structures that will be made available will allow the development of an aggressive promotion strategy.

The reasons of interest that revolve around luxury tourism, events, wellness, golf and all related businesses will be exploited for the benefits of FIO..

Collaborate with celebrities from all over the world (Demetra already has more than 100 contacts of influential personalities from the world of entertainment, culture and business who may be interested).

Fiorino - Whitepaper |

DISCLAIMER

All information and materials contained in this document are provided for informational purposes only and are subject to change at any time. Demetra Holiday sro may add information to, remove or amend any information and/or material contained in this document at any time and in its sole discretion with notice. This document and all information contained herein is not directed at or intended for use by any person resident or located in any jurisdiction where (1) the distribution of such information is contrary to the laws of such jurisdiction; or (2) such distribution is prohibited without obtaining the necessary licenses or authorizations by Demetra Holiday sro.

No information or materials contained herein should be construed as a solicitation, offer or recommendation, to buy or sell any products or services.

Demetra Holiday sro does not provide advice of investment, legal or tax nature and nothing herein should be construed as being financial, legal, tax or other advice.

This document may contain statements that constitute "forward-looking statements". While these forward-looking statements may represent judgment and future expectations of Demetra Holiday sro a number of risks, uncertainties and other important factors could cause actual developments and results to differ materially from those judgement and future expectations.

"Token" as crypto-asset is currently an low-regulated instrument, as such a high degree of uncertainty exists on how this instrument might be treated in the future. Demetra Holiday sro does not give any warranty that the current regulatory regime will not change and that Demetra Holiday sro tokens will remain unaffected by any regulatory changes in the future.

As "token" is by nature recorded on a blockchain, which is in itself a still very nascent technology, substantial risks exist just by owning Fiorino (FION) tokens. Demetra does not make any reliability claim regarding the underlying blockchain technology that Demetra Holiday sro token will be created on as such things are beyond Demetra's control.

The manner of which "token" will be created, transferred, and kept, will also likely involved third parties, such as wallets (software or hardware), and exchanges. Demetra Holiday sro does not represent or assure that it can prevent external factors from having a direct or indirect impact to token holders.

Demetra Holiday sro is not responsible for any risk involving third parties, before, during and after the token sale, such as incompatibility of wallets, third-party fraud or security breach, which may incur some or all losses of the tokens purchased.
